

K-One Technology Bhd. and its subsidiaries, jointly known as the K-One Group, is a technology solution provider listed on Bursa Malaysia. It is principally an innovator, designer and manufacturer of mobile phone accessories, consumer electronic lifestyle products, IoT products, healthcare/medical devices, computer peripherals, surveillance/security gadgets, industrial products and automotive aggregates, primarily for multinationals worldwide. In view of our expansion, we are seeking a suitably qualified candidate to fill the following position:

Project Business Director (Location – PJ)

Responsibilities:

- To develop new business and/or acquire new customers.
- To lead, direct and manage a project team to ensure goals, objectives and all elements defined in the project schedule are accomplished within the prescribed time frame and funding parameters.
- To plan and review overall resources, including financial, staffing, materials and expertise availability in fulfilling project requirements.
- To coach, mentor and train a team of project staff.
- To identify and resolve project issues by devising cost-effective solutions.
- To secure and work with strategic partners as and when required to accomplish project goals.

Requirements:

- Degree in Engineering or Applied Science.
- Minimum 10 years of relevant working experience in project/program management and/or sales/business development.
- Must possess sound knowledge in plastic injection molding, sheet metal processing, die casting and SMT processes.
- Mature, analytical mind, result oriented, innovative and willing to take new challenges.
- Possess good communication skills and an excellent team player.

Interested candidates are invited to apply online or write-in with your detailed resume stating personal particulars, qualifications, employment history, current and expected salaries, contact no. and passport-sized photo (n.r.) to:
