Embracing the “Gotong Royong” Spirit

K-One recently organised a gotong royong event with support from E-Idaman Sdn Bhd in the vicinity of its plants located in Ipoh.

Volunteers from K-One and E-Idaman turned up early on a Saturday, helped to clear rubbish and litter, cut grass and unclog drains to create a more pleasant surrounding and at the same time to reduce potential breeding grounds for Aedes mosquito.

Fallen leaves, branches and rubbish were removed from the drain to allow rainwater to flow freely and not stagnate the drain.

Waste collection truck being filled with rubbish and litter to be carted away.

After a half day of hard but satisfying work, a litter-free road and clean sidewalks makes the surrounding more welcoming. Volunteers have demonstrated to be good role models in keeping the place where we work clean and tidy.

Volunteers were pleased with their handiwork; clean walkway, trimmed grass and free from unsightly empty bottles, styrofoam food packs, plastic and dry leaves.

Together, we maintain the cleanliness and beauty of our surrounding.
