Cradle is a pre-seed, seed and start-up stage funding agency that provides grants, equity and commercialization support. Cradle is fully owned by the Ministry of Finance Incorporated which plays a critical role in the development and growth of start-ups in Malaysia.

MBAN is the official trade association and governing body for angel investors in Malaysia. Its objectives are to create awareness in angel investing and source investment opportunities for angel investors.

KiauLab is the co-working space venture of the K-One Group focussed in the business of housing and nurturing of tech start-ups under its roof with the dual aim of assisting in product development, industrialization and manufacturing and consideration to invest in high potential start-ups.

The MoU provides the platform for the three parties to share information and have access to each other's start-up database to explore mutually beneficial commercial arrangements.
