

K-One Technology Bhd. and its subsidiaries, jointly known as the K-One Group, is a technology solutions provider listed on Bursa Malaysia. It is driven by 3 key businesses; ODM/OEM of healthcare/medical devices, IoT gadgets, consumer electronic products, industrial equipment and automotive aggregates for multinationals worldwide, provision of cloud computing solutions and distribution of healthcare/hygiene-care products. In view of our expansion, we are seeking a suitably qualified candidate to fill the following position:

Project Engineer

(Location – Petaling Jaya)

Responsibilities:

- To coordinate all activities (software, mechanical, electronics) for purpose of meeting schedule, cost, quality and specification.
- To act as the window between customer and internal engineering support in project bidding, product design, prototype development, industrialization and volume production.
- To coordinate suppliers' activities to meet project delivery, cost and specification.
- To generate and maintain project documentation.

Requirements:

- Degree in Engineering or Science, Exceptional Diploma holders in Engineering may be considered.
- Familiar with either metal precision or plastic injection molding or PCB assembly or final assembly of electronic end products.
- Minimum of 3 working experience in the above fields, ideally in the project management of products or systems or sub-parts in a manufacturing environment.
- Possess good communication skills and an excellent team player.
- Able to travel frequently.

Interested candidates are invited to apply online or write-in with your detailed resume stating personal particulars, qualifications, employment history, current and expected salaries, contact no. and passport-sized photo (n.r.) to:
